7-Eleven lends a hand

7-ELEVEN Malaysia recently collaborated with NGO Hub to help Kirtash Handicapped and Disabled Children's Home, Bukit Beruntung, Rawang get back on its feet after the home was recently destroyed by fire.

After the mishap, the home received generous amounts of donations in kind from the public and asked for extra hands to sort the items out. 7-Eleven along with NGO

Hub and volunteers from Sunway University congregated to segregate the items to sell off in an upcoming garage sale. This will be carried out after Chinese New Year to raise funds to repair the home.

"We always strive to give back to the community that we operate in which is also in line with our corporate beliefs. We are delighted to show our support in contributing to the society by participating in

activities with NGO Hub Asia. We strongly believe that it is important to give back to the society and strive to 'Always be there for you!'" shared 7-Eleven Malaysia general manager of marketing Konan Lee.

Currently, the home has over 40 residents of various racial and religious backgrounds. It also provides special education, shelter, medication, food and vocational training.
